SCOIR was founded on the belief that students are more than their SATs and GPAs, and they are leading a revolution to transform the college admissions process from a short-term, quantitative transaction to a long-term, qualitative engagement. SCOIR enables students to showcase their talents and individuality through digital profiles while searching for colleges that best suit their interests. In addition, SCOIR provides an interface for parents so that they may become a part of the search process. Financial calculators are available to help assess and compare the costs of colleges, and parents can even recommend schools that they think their student may be interested in. The platform also allows counselors and teachers to send recommendations, transcripts and additional documents efficiently, with convenient scheduling and messaging programs, so they have more time to focus on their students.

Nonfiction is a brand and design consultancy in Worthington, Ohio. We believe in a world that is less complex, more honest, and more intelligent. A world with less noise and more meaning. We help companies, schools, and cultural organizations act, look, and sound simpler and smarter. Our work merges the rational and the emotional to create brand strategies and identities, graphic design, environments, and websites. We ask questions. We think. We create. And always in that order. Only after we understand the challenge do we put pen to paper to create the solution. Tomorrow will be defined by those who look forward. Our clients are dreamers. Entrepreneurs. Change-makers. They explore possibilities and what-if's. They aren't afraid of stepping into the unknown. They want to create the future, not just exist in it. So let's roll up our sleeves and get to work.
